R3 Wash
Chauvet

PRODUCT SPECS :

Rogue R3 Wash

Rogue R3 Wash is a feature packed moving wash workhorse ideal for rental and production inventories. It outputs a bright, evenly dispersed light and offers nine zones of LED control to pixel map its 37 (15 W) RGBW quad-LEDs. A quick moving zoom range of 9.3° – 62.6° gives it the spread to cover large areas. Smooth color mixing, simple and complex DMX channel profiles, and powerCON in and out round out the excellent features of this outstanding moving wash.

LASER BEAMBAR RGB
Laserworld

PRODUCT SPECS :

This **special laser effect creates fans of laser beams** and can be **controlled through DMX** or runs in **stand-alone or music mode.**

The Laserworld BeamBar 10RGB is a bar with **10 single beam laser outlets,** each equipped with a **120 mW / 650 nm red, 50 mW / 525 nm green and 80 mW / 450 nm blue laser diode** which means it is possible to create millions of colors and white. **Each laser beam can be individually aligned** through a 4-point alignment system, that can easily be accessed from the front - so no opening of the housing is necessary.

This show laser light provides an **analog modulation.** It means a **better color fading** and a **much broader color hue.** These facts make the Laserworld BeamBar devices ideal for all applications requiring many different color hues and color fadings.

The Laserworld BeamBar 10RGB can be **controlled through DMX channels,** so **each diode can be controlled individually.** Thus it's possible to **create many different chaser, beam or fan effects.**

Due to the standard DMX compatibility, the Laserworld BeamBar 10RGB can **easily be integrated into an existing lighting setup.**

This laser projector provides a **master-slave-mode.** Show lasers of the same series (slave projectors), connected via DMX to a main projector (master projector) project the same patterns like the master projector.
